

# Quality policy Tractive AB

---

Tractive AB develops, manufactures, and offers concrete cutting machines. We facilitate the work of professional concrete cutters by offering the safest, highest quality and profitable products for concrete cutting.

Tractive AB shall also be an attractive supplier of transmissions with good performance and life time to a reasonable price for many kinds of motor sport teams.

We have a high product quality and technical level, as well as excellent service and delivery performance both internally and to customers and always aim to fulfil the requirements of customers and other interested parties on both short and long term.

We do this by:

- ✓ Striving for quality in every aspect; from the design of a new product to product updates, manufacturing, marketing, sales, aftermarket and administration
- ✓ Focusing on product development, and constant improvement.
- ✓ Creating long term relationships with suppliers, distributors, and other strategic partners.
- ✓ Working systematically with constant improvements.
- ✓ Creating and maintaining a company culture with engaged and responsible employees who take decisions in accordance with our quality system and with Tractive's values, goals and strategy as guiding principles.
- ✓ Working in a way which is characterized by respect and understanding, prestige-lessness, and flexibility.
